

# PRESENTATION GUIDELINES

## READY TO RECORD YOUR PRESENTATION FOR “WHAT’S FOR DINNER?": THE SUMMIT?

Each presentation should be **15-17** minutes long and pre-recorded. They're meant to be more friendly and casual, rather than perfect and structured. We want our attendees to learn something valuable, while having fun in the process.

With that being said, you have your choice of the following presentation formats:

- ✓ Slideshow Presentation
- ✓ Cooking Demonstration
- ✓ Combo Slideshow + Cooking Demo
- ✓ Instructional video
- ✓ Workshop
- ✓ "Wild Card" creative ideas welcome! Contact me!
- ✓ Interview style in certain circumstances can be arranged - please contact me ASAP

Your presentation should include strong, actionable content and provide a transformation for attendees, moving them closer to **getting dinner cooked on a busy weeknight**. Here's the suggested format:

- 3-minute or less introduction
- Topic overview
- Where people go wrong and tend to **struggle with cooking dinner during the week**
- Teaching section
- A challenge and specific action steps to give a transformation
- Up to a 3-minute pitch\*
- Include questions for attendees to answer in the chat box throughout to boost engagement

\*You are welcome to pitch either a free or paid product. To get the most from your presentation, I recommend creating a freebie that helps them move toward the transformation you've promised and complete your challenge and pitch that. Having something directly related to your presentation that gets attendees closer to the goal they're interested in will perform better than an unrelated freebie or paid product. Then, I suggest that you hook your freebie up to a tripwire so you can start making money off of your presentation right away. From there, add new subscribers to your funnel!

No matter what format you choose, you are free to use your presentation however you'd like in the future.
